

## Parents

Many young animals look the same as their parents. Look at these baby seahorses and their parent.

Some young animals look very different from their parents. A caterpillar is a butterfly's baby.

Some young animals live with their parents for weeks. Some young animals live with their parents for years. Parents feed and protect their babies.

Some young animals don't meet their parents! A mother sea turtle lays her eggs in the sand. Then she goes into the ocean. Baby sea turtles hatch from the eggs. They don't meet their mother.
